Vote for the Amendments and you vote for repudiation.

THE Constitution is good enough as it is. What is the use of changing it?

EACH of the eight ballot-boxes will be labelled with the title of the proposed amendments to the Constitution, and the tickets will read, "For Ameudment," and "Against Amendment."

REMEMBER that an enumeration is not a census, and that if we do not have an enumeration of the people in 1875 the present unjust Senatorial apportionment will continue until 1882, if not longer.

The polls must be kept open from 8 A. M. to 7 P. M., and all qualified voters are entitled to vote, provided they are regularly registered. No one can register on the day of election, unless he arrives at the age of 21 on that day, and all voters should see that their names are on the registration books.

The old story of the natives of India voluntarily throwing themselves beneath the wheels of the car of Jugger-naut is shown to be purely fictional by modern investigators. Deaths have occurred, but it is proved that they were always accidental, so far as the victims were concerned.

Ourself.

Our readers have no doubt observed the changes lately made in the appearance of the Post. It has been furnished with a new dress, and many changes have been made in the arrangement of its news, which we believe to be improvements. The Commercial Department will hereafter be a feature in the Post, which we hope will be approved and appreciated. We intend these reports to be as full as our space will admit, and perfectly reliable. Other important changes will be made as soon as the material can be obtained to prepare them. A misunderstanding of our order at the type foundry has interfered considerably with our plans, but in a few days we will be in proper trim.

We hope to make the Post a necessity to our friends, and that its daily visits will always be welcome. On their part we hope they will give us all the help and encouragement the importance of the enterprise demands. The Post asks patronage, believing that it gives value received for its services, and no energetic business man who desires to secure his full share of trade can afford to do without it.

In this connection it may be proper to state again, what we have already said several times, that THE POST is pecuniarily and editorially under the control of the editor whose name appears

on the paper. That he is under no pledge to any man living, or any set of men, and that it is his desire and intention to publish a square, broad guage Republican newspaper, the organ of the regiment. Baltimore rejoices at the party, and of no clique, whether Northern, Southern, or colored. The Post will labor to harmonize difficulties, and keep the party firmly united, but its editor does not propose to be dictated to by any set of men, either by cajolery or threats. This is our platform, and these are our aims. We shall strive night and day for success, and expect to gain it.

THE Surry Visitor comes to us this week dressed in mourning for the death of its editor, Col. Samuel Forkner, a them with the statement that the Her- notice of whose death was published in of the houses and create damages of a ald supported Grant with great earns the Post a few days ago. "By the death of Mr. Forkner we have lost one of our best citizens; one who will be sorely missed by all classes; one who will long be remembered as a generous, kind and upright man, loved and breaking of mirrors and the rending of respected by all who knew him.

"Col. Forkner represented this couny in the Constitutional Convention in 1865; was a member of the House of Representatives in 1866-'67, and of the the Jesuits expelled from Germany Senate in 1868-'69, and has been a prominent man in the Republican party since the war.

"Also, he was the founder of the Surry Visitor, (the successor of the News,) which he has edited with increased success since its foundation, May 23rd, 1872, with much credit to himself and this section.

"His death has caused a shadow to overspread this community which it will take time to dispell."

STABBING AFFRAY.—Last night

about 10 o'clock, Henry Parker stabbed

Alfred Connor in the side, just below

the rib bone. We gleaned the follow-

ing particulars in regards to the case

this morning: Henry Parker has been

in the habit of visiting Alfred Connor's

daughter for some time past, and has

been repeatedly told by Connor not to

come to his house, as he did not deem

him a gentleman, or fit associate for his

daughter. Parker went up last night

and knocked at the door, and was met

by his inamorata's pater familis, who re

fused him admission and again ordered

him away. Parker became very much

enraged at this conduct, and immedi-

ately commenced abusing and cursing

Connor, and finally stabbed him in the

side. The latter dealt Parker a couple

of blows with a stick, which he held in

his hand, over the right eye, which had

a tendency to quiet Parker for a

short time. Parker left and was gone

about fifteen minutes, when he was seen

with a gun going in the direction of

Connor's house, and was heard by a

policeman to say that he was deter-

mined to kill him, but was frustrated,

however, by the policeman, who arrest

ed and conveyed him to the guard house.

His wounds over the eye were deep and

severe, and were dressed at Messrs.

Green & King's drug store. Connor's

wound is very painful, but is not consid-

ered dangerous.

A GREAT HORROR DONE AWAY WITH.-House cleaning is a great horror to nine men out of every ten. When that time comes the "men folks," as a rule, give the domestic hearth a "wide berth." Oceans of suds-the product of tons of soap-fairly flood every part of the house. The women, from the mistress down, labor as they never worked before, and what with the discomfort, the smell of suds and the dampness, and not unfrequently sickness, the product of colds and overwork, matters are generally disagreeable.-The simple use of Sapolio instead of soap does away with all this discomfort. It lightens the labor a hundred per cent., because it removes dirt, grease stains and spots, with hardly any labor, with but little water, and in one-tenth the usual time.

The Raleigh News says: The rumon that Judges Watts and Tourgee would exchange circuits, as published by us a few days since, is incorrect. It originated doubtless from the fact that an exchange of two Courts by these Judges is proposed, but has not as yet been agreed upon. Judge Watts proposes to exchange his two Wake terms for Orange and Chatham.

The Raleigh Sentinel says: The first peaches received in the city of New York this year were from the North Carolina orchards, and sold readily at \$8 per crate. The next lots were received from Maryland, Virginia, and Delaware, and were disposed of at \$5 per crate. The first strawberries this year received in New York, were shipped from Goldsboro' in this State.

The Raleigh News says: A few years ago Judge Watts, whose farm is near Franklinton, discovered in his cotton field quite a number of stalks which contained double or twin bolls of cotton, each of the two being as large as ordinary single bolls. As a matter of experiment he preserved all the seed of this cotton, which he planted the next year in a lot apart from his other crop. Every stalk from this seed produced double bolls and a superior article of lint. Again he was careful in preserving every seed, and this season planted with it the most of his crop of about 100 acres, manuring the land very heavily. Very strange to say, the stalk of this year produces a triple boll, and each of the three were larger, on an average, than the original single boll. The boll germinates from the main stalk, and branches in the largest profusion, and in some instances so heavily is the stalk laden with them, that propping the stalk with supports is necessary. An Eastern farmer that saw the field, and who gave us the information, says, never in his experience has he seen, read or heard of the like before. Judge Watts will have several of the stalks on exhibition at the State Fair, when all can see this owner of three dogs. freak of nature.

TO THE WEST! TO THE WEST!

Betore making your arrangements to follow the advice of the "thousands who have already gone," it would be well to consider what has been done to make the journey to your "Homes in the West" as pleasant and free from danger as human skill and foresight can accomplish.

By consolidation and construction, a road has been put into operation on the shortest possible line from Nashville, Tenn., to St. Louis, "the future great City of the world." This line, the

ST. LOUIS & SOUTHEASTERN RAIL-WAY,

has, during the past year, carned an enviable reputation by its smooth track, prompt time, sure connections, and the magnificence of its passenger equipment. Its trains are made up of new and commodious day cars, provided with the celebrated Miller coupler and platform, and the Westinghouse air-brake. Cotton quiet and steady. Uplands

It is possitively the only line running Pullman Palace Drawing-Boom Sleeping Cars through without change from Nashville to St. Louis. No other line pretends to offer such advantages, either in distance. time, or equipment. Why, then, journey by circuitous routes? Do not be induced to purchase tickets to St. Louis or the West by any other line, remember that

The "St. Louis & Southeastern" is the shortest, cheapest, quickest, best and only line under one management from Nashville to St. Louis, and is from 60 to 200 miles the shortest to St. Louis, Kansas City, Omaha, Denver, California, Texas, and all western points. It is also the "Chiago Shortest Line," via Evans ville.

You can secure the cheapest rates for yourselves and your movables on application, in person or by letter, to CHARLES McCabe, Southern Passenger Agent, near College street Depot, Nashville, Tenn., or Steamer Caswell, Paddison, Point Caswell, A H Van Bokkelan. to the undersigned.

VOTE for the Amendments and you vote for repudiation.

THE Constitution is good enough as it is. What is the use of changing it?

EACH of the eight ballot-boxes will be labelled with the title of the proposed amendments to the Constitution, and the tickets will read, "For Ameudment," and "Against Amendment."

REMEMBER that an enumeration is not a census, and that if we do not have an enumeration of the people in 1875 the present unjust Senatorial apportionment will continue until 1882, if not longer.

Heavy Joke.

Many of the democratic papers of the State are quoting the New York Herald the above statement as a huge joke .-And it's very funny, but it's a fabrication which won't stand the test any better than other gauzy fabrics made out of whole cloth.

Instructions:

As the method of voting on the Constitutional Amendments is not thoroughly understood by the people, we publish the following, that there be no mistakes.

There must be eight boxes at each voting place, beside those for township officers, on each of which must be labeled the amendment to be voted upon. In this county the labels will be printed in large, plain type, that there be no mistakes.

The following is the form of each label:

Amendment to the Constitution of North Carolina in relation to the Public

of Superintendent of Public Works.

Amendment to the Constitution of North Carolina in relation to the State

Amendment to the Constitution of North Carolina in relation to exemption

from taxation. Amendment to the Constitution of

North Carolina in relation to the Uni-Amendment to the Constitution of North Carolina in relation to the ses-

sions of the General Assembly. Amendment to the Constitution of

North Carolina in relation to the Code Commissioners.

Amendment to the Constitution of North Carolina in relation to Federal and other officers holding office.

The ballots may be written or printed, and need contain but the words thin-tined hay fork is any indication of "For Amendment," or "Against Amendment." In this county the tickets against the amendments are printed in slips of eight, so that each voter can tear them apart for each box as he votes. All persons opposed to the amendments should vote "Against Amendments."

The polls must be kept open from 8 A. M. to 7 P. M., and all qualified voters are entitled to vote, provided they are regularly registered. No one can register on the day of election, unless he arrives at the age of 21 on that day, and all voters should see that their names are on the registration books.

Ourself.

Our readers have no doubt observed the changes lately made in the appearwith a new dress, and many changes have been made in the arrangement of its news, which we believe to be improvements. The Commercial Department will hereafter be a feature in the Post, which we hope will be approved and appreciated. We intend these reports to be as full as our space will admit, and perfectly reliable. Other important changes will be made as soon as the material can be obtained to prepare them. A misunderstanding of our order at the type foundry has interfered considerably with our plans, but in a few days we will be in proper trim.

We hope to make the Post a necessity to our friends, and that its daily visits will always be welcome. On their part we hope they will give us all the help and encouragement the importance of the enterprise demands. The Post asks patronage, believing that it gives value received for its services, and no energetic business man who desires to secure his full share of trade can afford to do without it.

In this connection it may be proper to state again, what we have already said several times, that THE POST is pecuniarily and editorially under the control of the editor whose name appears on the paper. That he is under no pledge to any man living, or any set of men, and that it is his desire and intention to publish a square, broad guage Republican newspaper, the organ of the party, and of no clique, whether Northern, Southern, or colored. The Post will labor to harmonize difficulties, and keep the party firmly united, but its editor does not propose to be dictated to by any set of men, either by cajolery or threats. This is our platform, and these are our aims. We shall strive

STABBING AFFRAY.—Last night about 10 o'clock, Henry Parker stabbed Alfred Connor in the side, just below the rib bone. We gleaned the following particulars in regards to the case this morning: Henry Parker has been in the habit of visiting Alfred Connor's daughter for some time past, and has been repeatedly told by Connor not to come to his house, as he did not deem him a gentleman, or fit associate for his daughter. Parker went up last night and knocked at the door, and was met by his inamorata's pater familis, who refused him admission and again ordered him away. Parker became very much enraged at this conduct, and immediately commenced abusing and cursing Connor, and finally stabbed him in the side. The latter dealt Parker a couple of blows with a stick, which he held in his hand, over the right eye, which had a tendency to quiet Parker for a short time. Parker left and was gone about fifteen minutes, when he was seen with a gun going in the direction of Connor's house, and was heard by a policeman to say that he was determined to kill him, but was frustrated however, by the policeman, who arrested and conveyed him to the guard house. His wounds over the eye were deep and severe, and were dressed at Messrs.

The Raleigh News says: The rumor that Judges Watts and Tourgee would exchange circuits, as published by us a few days since, is incorrect. It originated doubtless from the fact that an exchange of two Courts by these Judges is proposed, but has not as yet been agreed upon. Judge Watts proposes to exchange his two Wake terms for Orange and Chatham.

The Raleigh Sentinel says: The first peaches received in the city of New York this year were from the North Carolina orchards, and sold readily at \$8 per crate. The next lots were received from Maryland, Virginia, and Delaware, and were disposed of at \$5 per crate. The first strawberries this year received in New York, were shipped from Goldsboro' in this State.

The Raleigh News says: A few years ago Judge Watts, whose farm is near Franklinton, discovered in his cotton field quite a number of stalks which contained double or twin bolls of cotton, each of the two being as large as ordinary single bolls. As a matter of experiment he preserved all the seed of this cotton, which he planted the next year in a lot apart from his other crop. Every stalk from this seed produced double bolls and a superior article of lint. Again he was careful in preserving every seed, and this season planted with it the most of his crop of about 100 acres, manuring the land very heavily. Very strange to say, the stalk of this year produces a triple boll, and each of the three were larger, on an average, than the original single boll. The boll germinates from the main stalk, and branches in the largest profusion, and in some instances so heavily is the stalk laden with them, that propping the stalk with supports is necessary. An Eastern farmer that saw the field, and who gave us the information, says, never in his experience has he seen, read or heard of the like before. Judge Watts will have several of the stalks on exhibition at the State Fair, when all can see this freak of nature.

TO THE WEST! TO THE WEST!

Betore making your arrangements to follow the advice of the "thousands who have already gone," it would be well to consider what has been done to make the journey to your "Homes in the West" as pleasant and free from danger as human skill and forcsight can accomplish.

By consolidation and construction, a road has been put into operation on the shortest possible line from Nashville, Tenn., to St. Louis, "the future great City of the world." This line, the

ST. LOUIS & SOUTHEASTERN RAIL-WAY,

has, during the past year, carned an enviable reputation by its smooth track, prompt time, sure connections, and the magnificence of its passenger equipment. Its trains are made up of new and commodious day cars, provided with the celebrated Miller coupler and platform, and the Westinghouse air-brake.

It is possitively the only line running Pullman Palace Drawing-Boom Sleeping Cars through without change from Nashville to St. Louis. No other line pretends to offer such advantages, either in distance, time, or equipment. Why, then, journey by circuitous routes? Do not be induced to purchase tickets to St. Louis or the West by any other line, remember that The "St. Louis & Southeastern"

is the shortest, cheapest, quickest, best and only line under one management from Nashville to St. Louis, and is from 60 to 200 miles the shortest to St. Louis, Kansas City, Omaha, Denver, California, Texas, and all western points. It is also the "Chiago Shortest Line," via Evans ville.

You can secure the cheapest rates for yourselves and your movables on application, in person or by letter, to CHARLES McCabe, Southern Passenger Agent, near College street Depot, Nashville, Tenn., or to the undersigned.

W B DAVENPORT, General Ticket Agent, St. Louis. No trouble to answer questions.

A. Guthrie, Register in Bankruptcy, in Fayetteville, N. THE PLAINS, FAUQUIER Co., VA., Feb. 6th, 1873.

Mr. C. P. Knight—Sir: The Paint came safely to hand as ordered—two kegs, five gallons each, and three buckets, one gallon each. As practice was slack, I did the job myself. Two weeks. (not constant work,) completed the house two coats. The last coat I applied thick, and it is now generally conceded that for enamel-like hardness, and body, and harmony of colors there is not a hardsomer job in the piece. I saved sixty-five dolors. and harmony of colors, there is not a handsomer job in the piace. I saved sixty-five dol and harmony of colors, there is not a handsomer job in the place. I saved sixty-five dollars by the operation, which is an item just now with Southern people. It should be generally adopted in this State. Any country lad can apply it. I have never dabbled in such stock as testimonials, but I feel so forcibly the great adaptability of your "Fnamel Paint" to the wants of our people, in excellency of material, in beauty of color, and in the fact of its being "ready mixed" that I give you free permission, (it it is desirable to you,) to make what use you think proper of this letter.

Very respectfully and truly,

S. McGILL, M. D.

To THE PUBLIC-It affords me much pleasure to state that in July, 1871, Front Street C. P. Knight, No. 93 West Lombard Street, is agent, and, to testify to its superiority over any and all other paints for similar uses. In no private dwelling can paint possibly be subjected to the very severe test it undergoes at this establishment, where, during our daily cleaning, soap and soda are constantly applied to it, and yet it appears as sound and fresh as when put on. Of the numerous advantages it possesses over other paints, I will only mention its being mixed and ready for use in quantities to suit purchasers, its quickly drying properties, which saves much time in the execution of work were paint is needed, and its very perceptible tenacity, which imparts beauty and durability to the objects on which it is used. As such I most earnestly recommend it to the merchants and tradesmen of our sity, believing it will give them greater satisfaction the and tradesmen of our city, believing it will give them greater satisfaction than they can possibly anticipate.

FROM HON. JOHN WETHERED. Mr. C. P. Knight:—At the recommendation of a triend, I was induced to apply your patent "Bradley's" paint to my house. I have pleasure in stating that it has proved highly satisfactory, covering more surface than you promised, is more economical, carries better gloss than ordinary paint, and is freer from disagreeable odor JOHN WETHERED. Yours, Respectfully,

BALTIMORE, December 27th, 1871. C. P. The Times will be devoted, as in the past, to an intelligent and firm support of the Republican Party. Its course in reference to the Tammany Ring, at a time when all the other daily papers in New York obstructed and discouraged its efforts, attests its sincerity in the cause of Reform. The TIMES stood alone in demanding Reform from 1869 to the close of 1871, and there is no sincere and honest proposal for Rem. in any branch of which will not be heartily supported by the TIMES. But it will not conspire in assmiing ambitious politicians or demagogues to reach power under false pretenses. It will not encourage defection from the Republican Party, which is still the party of progress, security and national prosperity. It will sustain, with all the force and influence at its command, the principles and policy which have rendered that party so justly famous in our history. It will advocate those measures by which the honor, the peace, and the prosperity of the nation can be best secured and promoted, and will constantly study the wants of the people rather than the wishes of the politicians.
